

To balance the need for cardholder privacy with the desire of many students and parents to have shared account access, the Fairleigh 1Card Program has created the "Guest User" feature. This gives cardholders the ability to grant account access to another individual, usually a parent, so that value can easily be added to a 1Card Cash account. Cardholders select the level of guest account access privileges by choosing one, two or all three of the following:

- Add Value & Management Payment Methods - Guests can store a credit/debit card in the secure account center to make it easier to add value or create a Recurring Allowance to automatically transfer funds to a 1Card Cash account on a pre-determined schedule.
- View Account Balances – Guests can see available balance.
- View Account Transaction Activity – Guests can see transaction activity.

To set up a Guest User, cardholders must first register their own 1Card Cash account. For instructions on how to register a 1Card Cash account, go to [www.fairleigh1card.com/accountmanagement.htm](http://www.fairleigh1card.com/accountmanagement.htm).
